

CHAMPAGNE AND WINE SAVER

The dual-action EPS Champagne and Wine Saver offers ideal vacuum seal technology for all types of wine, as well as the added function of creating perfect pressure to preserve opened bottles of champagne and sparkling wine.

The top-of-the-line EPS Champagne and Wine Saver comes with two revolutionary color-coded EPS Wine Stoppers, as well as one chrome drip-free EPS "Seal & Pour" Wine Stopper, and one chrome EPS Champagne Stopper.

"Seal & Pour" Wine Stopper

When ready to seal opened bottles of wine, insert the "Seal & Pour" Wine Stopper, flip the switch located on the automated EPS Champagne and Wine Saver to "red," and push button to vacuum seal your wine. Within a matter of seconds, a red light will signal that preservation is complete. The patent-pending drip-free EPS "Seal & Pour" Wine Stopper vacuum seals and can be used as a pourer.

CHAMPAGNE AND WINE SAVER

Model Number: C-RC-350

Contains

- 1 Combination Champagne and Wine Saver
- 2 Standard EPS Wine Stoppers
- 1 "Seal & Pour" Wine Stopper
- 1 Champagne Stopper-Chrome
- 1 Recharging Unit with Plug Adapter UL 12V DC

Champagne Stopper

For champagne and sparkling wine, slide the EPS Champagne Stopper over the bottle, flip the switch to "blue," place the unit's nozzle on the stopper, and activate pressurization with a simple push of a button. Within seconds, the red light will go on to signal that the ideal level of air has been added to create optimum pressure for preserving the delicate effervescence, flavor and aroma of the finest champagne or sparkling wine.
